

APPENDIX A | A/V REQUIREMENTS

ALEX WEBER

All In-Person Programs

PRESENTATION

Alex will bring a USB of the presentation in PowerPoint to easily connect and be ready to go!

Alex can always provide the presentation ahead of time if preferred.

PROJECTORS AND DISPLAYS

Alex plays media which will broadcast video and audio through the projectors and sound system. A powerful projector, display, and sound system is preferred for the best impact possible.

MICROPHONE

Alex prefers a wireless over-the-ear microphone connected to a professional audio system. A lavalier microphone that clips to the shirt is also great as an alternate.

AV TESTING / SOUNDCHECK

Alex's team can coordinate the best time for an A/V check before taking the stage.

CONFIDENCE MONITORS

If possible, Alex prefers a confidence monitor.

PODIUM OFF TO THE SIDE

If a podium is needed, Alex prefers for it to be off to the side or back of the stage so Alex can fully deliver his high-energy keynote!

OTHER INFO

Final request: a high five! Alex brings a ton of positive energy to the house, and we can't wait to rock this event with you!

Please reach out if we can be helpful in any way, and we look forward to making your event a huge success!

Updated 9.1.2026

Hybrid Event (In-Person and Virtually on Zoom at the same time)

Additional audio-visual requirements for the Sponsor:

- Computer with Internet Access
 - Suggested hardwired access versus WIFI
- An external camera with a minimum 1080p resolution that can connect to the laptop
- An external Bluetooth enabled microphone that can connect to the laptop
- Power from an extension cord

EVERGREEN Speakers will provide:

- The password protected link to the EVERGREEN Zoom platform for the virtual event
- A Virtual Event Manager

The sponsor may consider hiring an outside company to manage the a/v setup for the virtual component of the Hybrid event; but the event shall still be presented & managed from the EVERGREEN platform.
